## About This Game

This is a non-VR optional game. Oneirogen is a strange non-competitive 20-30 min room scale experience with gameplay elements.

Oneirogen is a dreamlike circular journey through the depths of the developer's subconscious. Inspired by the writings of Carl Jung and Joseph Campbell, this surreal experience was made for room scale VR from the ground up. Flow from one environment to the next as you experience a magical trip through mysterious realms.

Spend as long as you like in each scene, there are no timers or scores.

No deaths, killing, or intense violence. (Safe for children)

No UI or menus. (Great for showing to newcomers to VR or gaming)

---

No teleportation. Built with a 3mx3m space in mind. (Limited smooth locomotion available with thumb pad/stick for smaller spaces)

Find the 4 hidden tokens to unlock minigames in the starting room

All proceeds support the artist to develop bigger and better and weirder VR things!

Folks, seriously... This game is perfect.

I played oldschool RTS back in my highschool times for hours. Then I grew up, got a job and had to satisfy my gamers needs with some puny mobile games with 3 minutes of gameplay.

Now finally I managed to get my hands on Crush Your Enemies and I was like:

- Ok, I have exactly 10 minutes so let's play...
- My GF detached me from my fanatic gaming trans 2h later.
- How did that happen?

I had to literally force myself to uninstall the game so I could get back to earning money for living.

Do buy it, do play it but do get a holiday from your work first. As soon as the game grabs you, it will be tough to stop.

### CRUSH YOUR ENEMIES!

(and drink beer... responsibly)

. I returned this game. It's unfinished and even worse it's not fun. Don't bother, play Radial G if you want a futuristic racer..

Nice game in retro style.. its a freemium application, so if u have money for key buy it. I just couldn't get it to work on my computer, like there were so many things that It wanted me to fix.. Pros:

- + Nice graphics
- + Nice idea
- + Fun to play at start

Cons:

- Quests are getting annoying - spikey rivers for example made me ragequit - everytime u fail, u need to start it from the very beginning...
- Walls colliders are pretty much annoying and not regular, therefore its hard to manouver correctly.
- What's more - i had to spend like few minutes before I figured out what those "thorns" are - they blend into background too hard.
- Controls are not clear enough.
- Another problem is big map - too big, too much empty space makes this game feel like "autorun mmorpgs"...

TL;DR: Not worth the price. I wouldn't recommend buying it for more than 1-2€.. Boss Constructor is like taking Spaz, Gratuitous space battles, and FTL and mashing them all together. Although it is still fairly early, the game promises to be the next great space shooter.

I found myself losing time in combat and losing even more time editing my space-fairing creations. The developer has already put in about 4 patches (after only one week) and when I did have some trouble with some CTD's, he immediately sent me the instructions to fix it.

So far, I like what I see, and I can't wait for more new ship parts to shove into the the evovler!. No clear goal, controls are clumsy, and the "letters" you find in the game are almost impossible to read. I'm glad it was only ~50 cents on sale but holy smokes. Maybe it gets better a ways in but I'll never know.. This is a great party game. Graphics are great; levels are great; music is fun; mechanics are smooth. Playing it single player is pretty fun too. 10V10 A++.. Thicc af and I recommend you get it

Anna's Quest is a rather slow paced point & click game that has amazing visuals and a unique aspect to it. You have telekinesis (telekameesis) that you can use for the items in your inventory or alter the things around you. Story is well executed in my opinion and there weren't so many puzzles but the game was still challenging sometimes. I liked the characters and the dialogues but some people may not like it. Story follows a young little girl named Anna and her quest to save his ill grandfather. For me it was a pleasure playing it till the end .. Really fun game in the same vein as classic beat-em-ups, especially games like River city rampage, with great art and great action. Why doesn't this then get my recommendation? The game crashes EVERY TWO LEVELS for no discernible reason. When it happens once, that's something I can overlook. When it happens 10 times.... I'm going to uninstall the game and give it a big thumbs down.

Maybe you'll have better luck than I had..... This game is completely different out of VR compared to in. The one thing that the modes both have in common is that the putting is cancer. The VR is pretty good otherwise. It's simple and can be fun if you need a quick golf fix. For the price on sale it's good. They need a demo for this game to see if you truly want it.. So this game is it good if you like 7 days to die you'll probably like this but for me this is more like the true successor to dead frontier 2 unlike the actual dead frontier 2 this is an open world zombie survival rpg and what it does it does good there are bugs and features to be added for quality of life this to me is a zombie survival that focuses on the zombies over pvp combat and I like that. me (spoiler)pinoy(/spoiler) me like. what am I doing with my life. 10/10 Would Llama again.. Invisible Inc???? phantom doctrine???

Based on pure game experience, worse than Invisible Inc, a little better than phantom doctrine.

?????bug????????????????

There are still acceptable but major bugs, which should not be too hard to be fixed.

??

The stimulation part of mission is terrible. I will only consider it as boring and repeated-played CG.

??

But based on the developer's previous work, there is a chance that they may not be able to develop a too much complicated system over mission stimulation. So several delicate contexts might be most you will get.

????? ???

Since I was expecting game mechanism similar to Invisible Inc? Xcom??

??

There is a comment that I think concludes this game very well. If you are a big fan of this type of game, you will get around 2, 3 hours of good time for first try, then you do not want to touch this game anymore.
